

Alphabet Grab and Color Activity

Looking for an alphabet learning invitation that can be kept out and enjoyed off and on for a few days?! This is the activity for you! This alphabet practice activity will keep your child interested and engaged for a long time. This activity mixes art with learning and is perfect for preschool aged kids and up.

Make your alphabet letter rocks and draw your bubble letters on a large sheet of white paper. This is really the only step!

Supplies:

Paper

Alphabet rocks

Markers

Now invite your child to match the alphabet letters one at a time, name the letter, and color it! Children can also name an object that starts with that letter sound, if they are ready for that step.
