

# MATH ACTIVITY

## Cardboard Puzzle

### □ Steps:

### □ What you need:

- Thin Cardboard Boxes (from groceries)
- Pen
- Scissors
- Ruler

1. Cut out flat rectangles or squares from some thin cardboard boxes.

2. Using a ruler and a pen, draw horizontal lines down the cardboard to follow when cutting.

3. Using the scissors, cut along the lines drawn with the pen to make cardboard puzzle pieces.

4, 5. Using a ruler and a pen, draw various lines on the cardboard to follow when cutting. Scramble the cardboard puzzle pieces to make it a challenge.

6, 7. Put together the puzzle pieces with your child to form the rectangle/square cardboard sheet back together.
