

## Chalk Alphabet

### □ Steps:

### □ What you need:

- Spray bottle (filled with water)
- Sidewalk chalk

1. Using the chalk, draw the letters of alphabet on the sidewalk.

2, 3. Write each letter clearly, and make sure there is some space between them, about 2-3 inches.

4, 5, 6, 7. Use the spray bottle to erase the chalk letters if needed. Wait for the water to dry, then use the space again for more letter writing.

With your child, try pointing out each of the scrambled letters in order of the alphabet, while singing the song together.
