

## Frozen Snowflakes

### □ What you need :

- Various Coloured paints
- Paintbrushes
- White Paper
- White Oil Pastel
- Salt

### □ Steps

1, 2, 3. Draw some snowflakes using oil pastels. Paint over them using various paints.

4. While the paint is still wet, sprinkle salt over the painting around the snowflakes, then set and let it dry.

5, 6. As the painting dries, and the salt absorbs the wetness of the paint, the snowflakes will look “frozen”, like a windowsill.
