

# ALPHABET ACTIVITY

## Matching Alphabet Plates

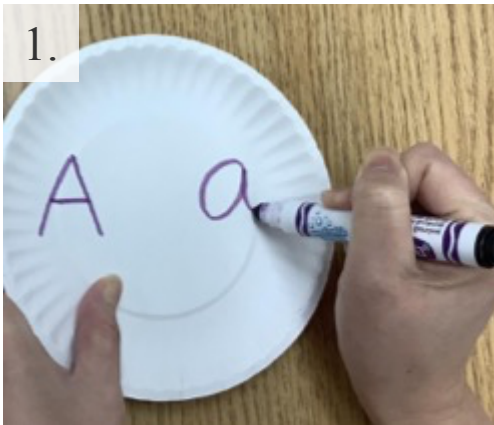

By Tamara, Cindy & Eunice

### What you need:

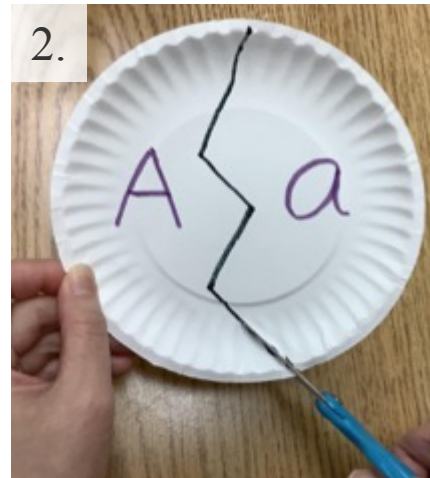

- Markers
- Paper plates
- Scissors

### Steps:

1. Write down the lowercase and uppercase version of a letter on opposite sides of the plate.

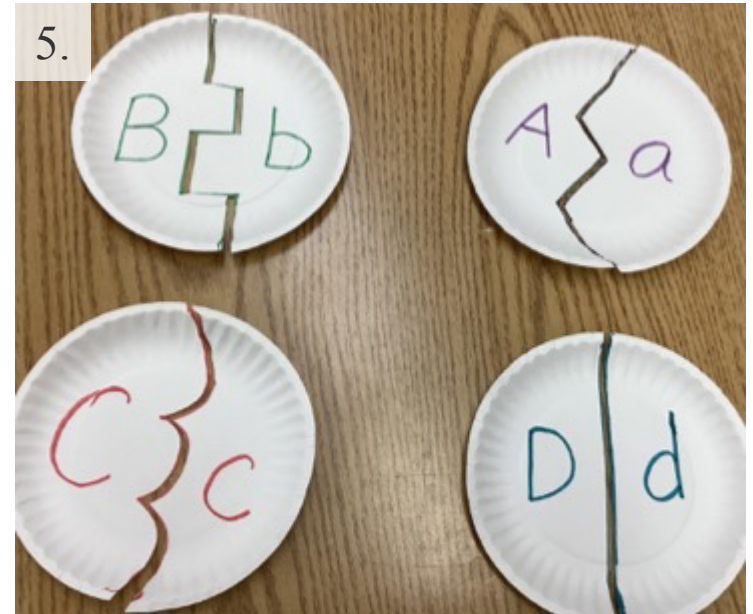

2. Draw a separating line between the 2 versions using a marker, then cut along it.

3. Repeat step 1 and 2 with other letters of the alphabet, then scramble the plate halves.

4. Find the matching halves of the plate and place them together with your child.

5. Look at each of the letters and say them with your child. Talk about which letter is in uppercase, and which letter is in lowercase.
