

## Moving Snake

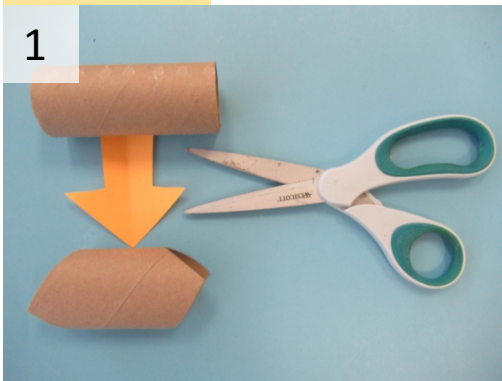

### What you need:

- 6 empty toilet paper rolls
- Scissors
- Craft tissue paper
- Construction paper
- Glue
- Pipe cleaner
- Pen (to make a hole)

### Steps

1

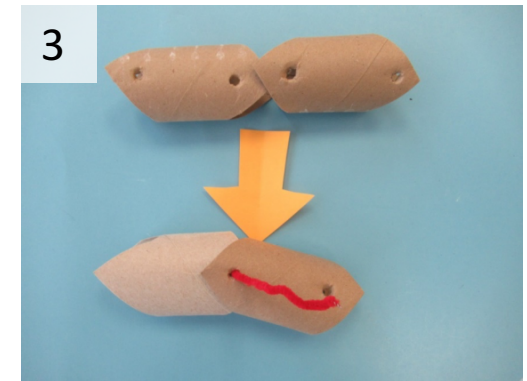

1. Using scissors, cut the empty toilet paper rolls' edge off from all sides.

2

2. Using a pen, make two holes, one in each end of the cut empty toilet paper roll. Repeat step 1 and 2 with the rest of the empty toilet paper rolls.

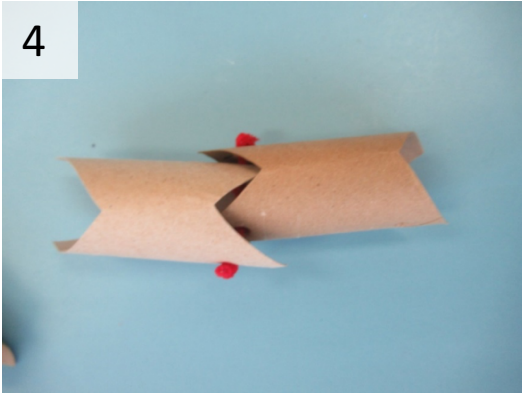

3

3. Align the holes of two cut empty paper rolls, and tie it with the pipe cleaner.

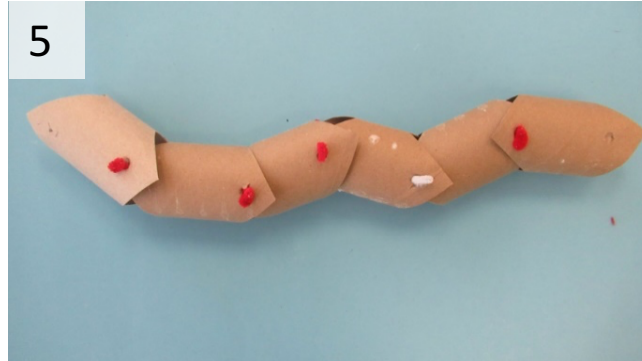

4

4. Align holes with another empty toilet paper roll, connecting to the two empty toilet paper rolls in step 3.

5

6. Repeat step 5 until all the cut empty toilet paper rolls are connected together.

6

7. Decorate the snake with craft tissue paper. Use scissors to cut eyes out from construction paper and glue it on the head of the snake. Use scissors to cut a small length from a pipe cleaner and tape it to the inside of the bottom of the head, as the tongue. Now you are ready to play!
