

ART ACTIVITY

Painting with Colored Ice Cubes

By Cindy, Tamara & Eunice

What you need:

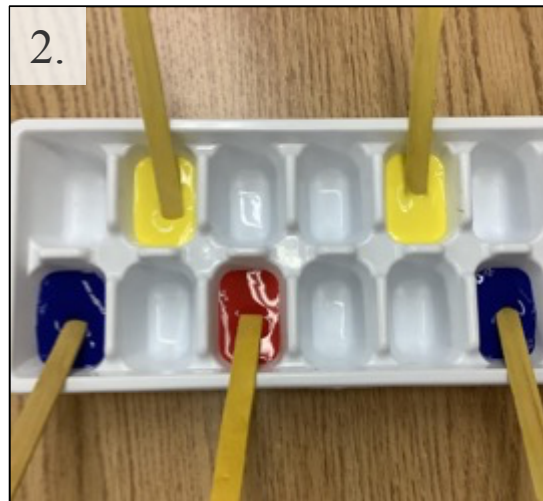

- Primary Coloured Paints (red, yellow, blue)
- White Construction Paper
- Ice cube tray
- Popsicle sticks

Steps:

1. Pour the paint into the ice cube tray.

2. Place the popsicle sticks into the paint. Let the paint freeze!

3. Remove it from the tray with the stick.

4.

4. Use the frozen cubes to paint as they melt onto the construction paper. Use them together, and see how new colours are created as they blend into each other.

5. Continue to paint with the cubes until all of it is melted and used. Talk about the colours that are being used and made with your child.
