

MATH ACTIVITY

Rubber Duck Math Race

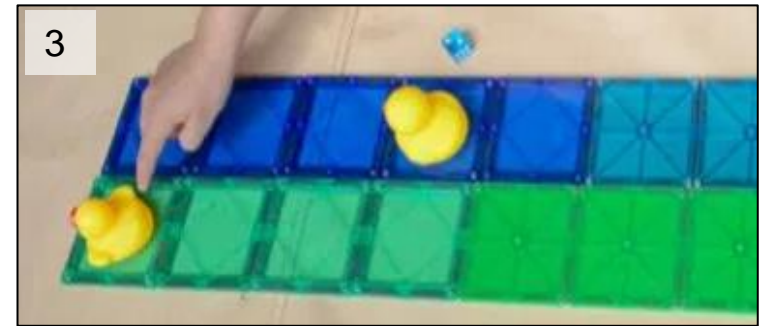

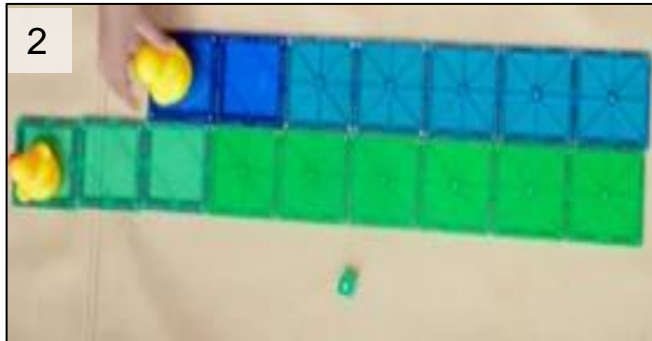

Photos by: happytoddlerplaytime

What you need:

- Magnetic tiles
- Rubber ducks
- Dice

Steps:

1. Roll the dice and count out the number of magnetic tiles and move the rubber duck along the path created.

2. Roll the dice again and then ask your child to count out the number of magnetic tiles to match the amount on the dice. Move the rubber duck along the magnetic tile path.

3. Roll the dice again and add the rolled number of magnetic tiles to the path.

Suggestion: Practice adding and counting the magnetic tiles by each colour.
