

☐ What you need:

- Plastic Letters
- Shaving Cream
- Baking Tray
- Paintbrush

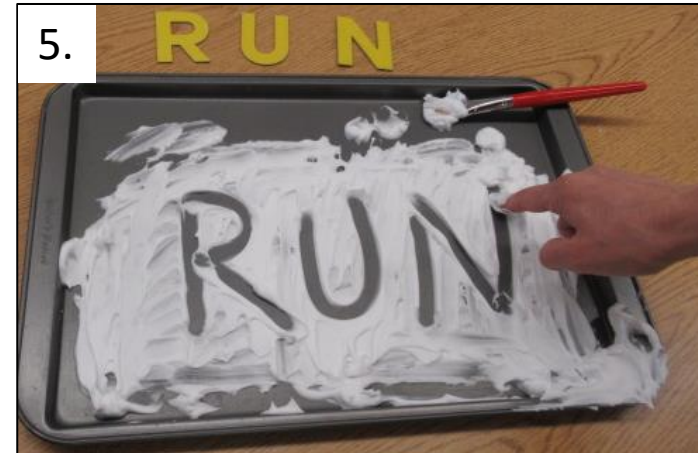

Writing the Alphabet

☐ Steps

1, 2, 3. Spray some shaving cream onto the baking tray, then spread it evenly on the surface of the tray using a paintbrush. Make a short word with the plastic letters and with your finger, write down the word into the shaving cream.

4, 5. Spell out the words with your child and encourage them to “write down” the words using their fingers in the shaving cream. Use the paintbrush to spread out the shaving cream again before writing another word.

The soft texture of the shaving cream would make this activity interesting for the children to try. Try this with longer words to challenge your child as well!
